

EA, ArchiMate and BPMN for Business Strategy

This course is ideal for business architects and analysts who are new to Enterprise Architect as well as ArchiMate and BPMN. It covers the ArchiMate business layer plus motivation and strategy elements for capturing business architecture and strategy. It also includes BPMN for creating hierarchical business process models.

Duration: 4 days

Prerequisites: No prior Enterprise Architect, ArchiMate or BPMN experience is required. A background in business architecture is helpful.

Equipment:

For on-site delivery the customer should provide a suitable training room with a screen or projector to connect to our trainer's laptop and a whiteboard or flipchart. All delegates require a PC or laptop running Enterprise Architect.

For webinar delivery delegates require a PC or laptop running Enterprise Architect with an Internet connection (a headset can be helpful). If you wish to test your environment join a test WebEx meeting: www.webex.com/test-meeting.html

A trial version of Enterprise Architect is fine for training and can be downloaded from Sparx Systems website: www.sparxsystems.com/products/ea/trial.html. It is also helpful to have a mouse as this makes creating diagrams much easier.

Course Style:

40% theory, 60% practical.

Each module is accompanied by paper and hands-on exercises to allow delegates to apply the theory and become confident using Enterprise Architect.

Delegate Handouts:

Each delegate receives a folder containing all the course slides and comprehensive theory notes which form excellent reference material. Folders also contain exercises and suggested solutions. Following successful completion of the course each delegate receives a certificate.

Course Modules:

			Theory	EA	Notation	Exercise	Hands-on
HIPPO 00	Introduction	½ hour
