

EA and ArchiMate Business

This course is aimed at business architects who wish to learn ArchiMate notation and how to model ArchiMate viewpoints in Enterprise Architect. It covers the ArchiMate business layer for modelling business organisation, processes and functions, strategy elements that focus on business capabilities and the motivation extension for identifying stakeholders, drivers and goals.

- Location:** Livingston, UK
- Date:** Wednesday 5th June 2019
- Time:** 9.30am to 4.30pm GMT
- Cost:** £350 + VAT per delegate
- Prerequisites:** No prior knowledge of ArchiMate is required. Basic Enterprise Architect experience is expected. If new to Enterprise Architect consider attending our “EA Fundamentals” course.
- Equipment:**  For classroom training delegates are required to bring their own laptop running Enterprise Architect. It can also be very helpful to have a mouse as this makes creating diagrams in Enterprise Architect much easier.
- A trial version of Enterprise Architect is fine for training and can be downloaded from Sparx Systems website: www.sparxsystems.com/products/ea/trial.html
- Course Style:** 45% theory, 55% practical
Each module is accompanied by hands-on exercises to allow delegates to apply the theory and become confident using Enterprise Architect.
- Delegate Handouts:** Each delegate receives a booklet containing all the course slides and comprehensive theory notes which form excellent reference material. Booklets also contain exercises and suggested solutions. Following successful completion of the course each delegate receives a certificate.
